Why Should I Join?

As an HRWA Associate Member you will play a vital role in HRWA's future success. Your membership will support important training, technical assistance and legislative programs that benefit rural and small community water and wastewater systems throughout the State.

It is also very important that the utility providers, like yourself, stay informed of developing regulations, management strategies, and technologies. As an Associate Member, one of the biggest benefits is our promise to network on your behalf. With HRWA's extensive reach here in Hawai'i and the Pacific, we want to also support those who support us!

Your participation will help improve system operations for the water and wastewater systems throughout Hawai'i and the southern and western Pacific regions. This will improve the quality of the drinking water and ensure properly treated wastewater for today and future generations.
