

HAWAII RURAL WATER ASSOCIATION
TRAINING AND TECHNICAL
CONFERENCE

The Hawai'i Rural Water Association (HRWA), a 501-C3 non-profit organization, provides onsite technical assistance and training to the water and wastewater utilities in our local and rural communities in Hawai'i and the Western Pacific. Through this assistance, we provide managers, operators, personnel, and rural community boards with the tools and support they need to establish and maintain a compliant sustainable utility and assist with personal career advancement in their profession.

We are happy to announce our upcoming **HRWA Training and Technical Conference** and golf tournament set for May 23-26, 2023, at the **Courtyard King Kamehameha's Kona Beach Hotel**. Our goal is to provide technical presentations for our water and wastewater communities, focusing on security and emergency response training, industry technologies, and equipment to maintain a sustainable utility. Through the conference programming, attendees have the opportunity to obtain a wealth of up-to-date information and learn about innovative approaches through technical sessions and tabletop exercises on a wide range of topics.

In addition to our technical sessions, attendees may participate in the Great American Water Taste Test competition during our meet and greet session or try their hands at the Backflow Prevention Assembly Tester Competition. Or, if you want to work on your golf swing, join us on Friday, May 26, for our golf tournament. Funds raised from the golf tournament will help support our apprenticeship program.

The success of hosting an event like this requires financial support and is a critical factor in the success of our conference. Conference sponsorship can be achieved in many ways and is not limited to monetary contributions alone but includes many other gifts of needed materials and in-kind services as well, i.e., personnel, printing services, equipment, etc. As a sponsor, you will make possible an enriching and innovative day of learning and discovery for all participants. Your name will be listed in all official event publications through your sponsorship and posted throughout the conference rooms and exhibition hall. Most importantly, you will have the satisfaction of knowing your support has made a difference in improving the quality of education and training afforded to our rural water and wastewater communities.

How do you become involved? Complete the attached Sponsorship Form and return it to our office at:
