

Announcing A Teacher's Workshop

At the 56th Annual HWWA and 2nd Annual HRWA Conference

Certification in the nationally acclaimed Project WET*

Join us for this exciting hands-on workshop and become a certified Project WET (Water Educations for Teachers) Educator! Participants will engage in fun hands-on indoor and possibly outdoor learning activities appropriate for K-12 students. Project WET is designed to challenge students and introduce new Science, Social Studies, English and Math concepts. Project WET is the perfect curriculum and activity guide for any educator.

Come learn how to bring the study of water quantity and quality to your students in hands-on activities and field investigations through science methods. This workshop certification has 6 hours contact time and experience in the field. Attendees are required to attend both half-day Project-WET sessions in their entirety to qualify for certification.

When: November 1-3, 2017

Where: Sheraton Kona Resort & Spa at Keauhou Bay

Who: Ideal for K-12 formal and informal educators interested in teaching cross-curriculum water education lessons

Conference Fee: \$375

WET Activities are:

- Correlated to Common Core Standards and Next Generation Standards,
- Interactive and hands-on,
- Ideal for reaching different learning styles,
- Flexible to be used in- or outdoors,
- Topics include: water conservation, watersheds, wetland, ground water and more!

Registered Participants receive:

- Project WET 2.0 Activity Guide
- Meals and conference event tickets (more information available upon registration)

*Pending Professional Development (PD) Credit Accreditation (not guaranteed at this time)
