

EPA Tools & Resources Training Webinar

Climate Change Adaptation Resource Center (ARC-X)

Thursday, February 9, 2023 at 3:00 to 4:00 PM ET

REGISTER HERE

Certificates of attendance are offered!

EPA's Climate Change Adaptation Resource Center (ARC-X) is an innovative system designed to help all 40,000 communities across the United States anticipate, prepare for, and adapt to the impacts of climate change. It supports local government officials in every community, from those with extensive experience and expertise dealing with the impacts of climate change, to those working in communities who are just beginning to meet those challenges.

The ARC-X is unlike any other resource currently available to the public. Users are given an opportunity to first "self-identify" by indicating the region of the country in which they live and the specific issues of concern to them. The system then provides them with an integrated package of information tailored specifically to their needs, including insights on the implications of climate change for the issues they care about, case studies of how similar communities have successfully adapted, access to adaptation tools to replicate those successes, available training, and information on federal sources of funding. This webinar will provide an overview of ARC-X and how to use it.

Tailor Your Climate Adaptation Search

Geographic Region

Pick one region: Northwest

Area of Interest

Pick one or more interests:

- Air Quality**
 - Indoor Air
 - Outdoor Air
 - Ground Level Ozone
 - Particulate Matter
- Water Management**
 - Water Utility Facility Operations
 - Drought
 - Saltwater Intrusion
 - Sea-level Rise
 - Storms & Flooding
 - Source Water Impacts
 - Water Quality
 - Stormwater Runoff
 - Erosion & Sedimentation
 - Algal Blooms
 - Ecosystem Protection
 - Wetland Protection
 - Estuaries
 - Change in Fish Species
- Waste Management & Emergency Response**
 - Contaminated Site Management
 - Disaster Debris Management
- Public Health**
 - Air Quality
 - Water Quality
 - Extreme Heat
- Adaptation Planning**
 - Getting Started
 - Comprehensive
 - Sector-Based

Select both a Region and an Area of Interest to search.
